

- Deploy the **portlet liferaysensePortlet.war**
- Go to **Users and Organizations**, choose a user, go to **Roles** and add the “Sense Administrator” Rol (Repeat this step if you want to add more sense administrators)
- Go to **Sense Analytics > Global settings**
  - Enter the Sense username and password (new or existing one)
  - (If you want to create a new account but the email is already in use you can change it to register the sense account and go back to the previous email once the account is created)
  - Enter the “Time in Minutes to keep alive the navigation (online users)”
  - Enter the “Time in seconds to auto-refresh the "live view"”
  - Click save
